SUBJECT INDEX

Absorption efficiencies of *Lytechinus variegatus* for selected marine plants **21**, 223
Acanthaster planci, biochemical stimuli for feeding in **22**, 193
Acanthaster planci, response to partial stimuli **22**, 199
Acartia tonsa, observations on existence of lower threshold and upper critical food concentrations for **29**, 211
Acmaeid limpets, influence of sessile organisms on population biology of **26**, 1
Actinia equina, temperature acclimation in **28**, 285
Actinia equina, thermal stress and biology of **27**, 141
Adenosine triphosate content of some marine bivalves **28**, 269
Adenylate energy charge in phytoplankton **27**, 37
Aegires punctilucens, description and metamorphosis in **26**, 177
Aetide divergens, feeding by **29**, 231
Amino-acid absorption by gill tissue of *Mya arenaria* **24**, 205
Ammonia metabolism in symbiotic and aposymbiotic *Condylactus* and *Cassiopea* spp. **21**, 1
Amylase, trypsin, and proteins of zooplankton, automatic and manual measurement **29**, 279
Analysis of oxygen uptake and transport in different kinds of animals **27**, 125
Anguilla anguilla, properties and nature of $(Na^+ + Mg^{2+})$-dependent adenosine triphosphatase in gills of **28**, 67
Annual and diel variations in a small bay, interpretation of monitoring data **26**, 27
Annual changes in the weight, elementary composition, and calorific values of juvenile stages of some copepods **26**, 265
Annual pyloric cycle in *Asterias rubens* **30**, 165
Aplysiidae, observations on development, larval growth, and metamorphosis of four species of **29**, 245

Arachnoides placenta, structure and function of genital papillae in . . **27**, 187
Arbacia lixula, biochemical constituents of the principal compartments during the sexual cycle and effects of starvation on sexual maturation **28**, 17
Arenicola marina, burrowing of **30**, 129
Arenicola marina, rôle of head and coelom in proboscis eversion . . **23**, 85
Ascophyllum nodosum, ecological studies of the salt marsh ecad *scorpioides* of **23**, 171
Ascophyllum nodosum, estimation of absolute polyphenol content . . **30**, 209
Aspartate aminotransferase variation in the Atlantic eel **22**, 123
Asterias rubens, annual pyloric cycle in **30**, 165
Atlantic eel, aspartate aminotransferase in **22**, 123
Atlantic eel, esterase variation in **22**, 113
Aulacomya ater, reproductive cycles and gamete production in . . . **30**, 53
Austrocochlea constricta, effects of available food on shell-banding pattern **23**, 229
Austrocochlea constricta, factors affecting shell-banding pattern . . . **23**, 211
Austrocochlea constricta, observations on biology of **23**, 211, 229
Autotomy in *Carcinus maenas* **24**, 177
Avoidance and escape responses of *Olivella biplicata* to predatory asteroids **28**, 77

Bacteria and algae in food of *Metapenaeus bennettae* **22**, 131
Bacteria and algae in food of *Mugil cephalus* **22**, 131
Bacteria and meiofauna in an experimental sand ecosystem **24**, 237
Balanus balanoides, rate of development of embryos from European and American populations and designation of local races **24**, 251
Balanus balanoides, utilization of various biochemical entities in gonadally mature animals under starvation and feeding in absence of copulation **22**, 257
Balanus balanus, ultrastructure of oviducal sac **27**, 261
Barnacles, functional morphology of alimentary tract **28**, 183
Barnacles, organization of 'special' parenchymal cells underlying the midgut in **23**, 155
Benthic macrofaunal dynamics, production and dispersion in an oxygen-deficient Swedish estuary **26**, 107
Biochemical constituents of the principal compartments of *Arbacia lixula* during the course of the sexual cycle and effects of starvation on sexual maturation **28**, 17
Biochemistry of cirripede eggs **22**, 263
Biomass production in mass cultures of phytoplankton at varying temperatures **27**, 161

Bivalve community on an intertidal mud-flat, biomass and production of **25**, 249
Blennius pholis, reproductive cycle and its control, frequency of spawning and fecundity in **30**, 73
Blood serum proteins during moulting in the lobster **28**, 293
Body fluids of marine invertebrates, pH of **30**, 327
Bonellia viridis, feeding and particle selection in **28**, 163
Boring alga, rate and nature of infestation of a carbonate substratum by **27**, 107
Brown algal phenols, quantitative studies in **30**, 209
Burrowing activity of *Nephtys cirrosa* **24**, 307
Burrowing of *Arenicola marina* **30**, 129
Burrowing of *Nereis diversicolor* **30**, 129

Cadmium accumulation by plaice **30**, 223
Cadmium accumulation by thornback ray **30**, 223
Callinectes sapidus, effects of intrinsic and environmental factors on oxygen consumption in **22**, 171
Caranx mate, effects of temperature and salinity on eggs and early larvae of **21**, 51
Carbohydrates in marine planktonic organisms **29**, 161
Carbon and nitrogen in pelagic *Sargassum* community metabolism **29**, 107
^{14}C method of measuring epibenthic microalgal productivity in air . **25**, 207
Carcinus maenas, ecological energetics of 0-group from a shallow sandy bottom in Gullmar fjord, Sweden **30**, 233
Carcinus maenas, heart and scaphognathite activity in **28**, 87
Carcinus maenas, incidence of autotomy in **24**, 177
Carcinus maenas, respiratory responses to changes in environmental salinity **29**, 197
Carcinus maenas, size, temperature, and scaphognathite frequency-dependent variations of ventilation volumes in **30**, 85
Caribbean reef corals, species density and associations in **24**, 19
Cassiopea sp., ammonia metabolism in **21**, 1
Caulerpa brownii, effect of wave exposure on amphipod fauna of . . **25**, 1
Cellular responses to shell damage in *Mytilus edulis* **30**, 1
Chaetoceros affinis, var. *willei*, carbohydrate production in **29**, 161
Chaetoceros simplex calcitrans and its environment **28**, 41; **30**, 277
Chaetoceros simplex calcitrans, capture and metabolism of dotriacontane **30**, 277
Chaetoceros simplex calcitrans, effects of light and ultraviolet irradiation on primary production and biosynthesis of sterols **21**, 69
Chaetoceros simplex calcitrans, relations with culture media; study of

hydrocarbons **28**, 41
Chelonia mydas, histology of ovary of **24**, 189
Chelonia mydas, soft-shell membranes of the egg shell **27**, 83
Chelonia mydas, studies on egg shell of **22**, 145
Chelonia mydas, ultrastructure of oviduct **21**, 75
Chemical investigations of Loch Etive, Scotland. I. Inorganic nutrients and pigments **29**, 45
Chemical investigations of Loch Etive, Scotland. II. Dissolved organic compounds **29**, 65
Chemical investigations of Loch Etive, Scotland. III. Particulate organic carbon and particulate organic nitrogen **29**, 81
Chorismus antarcticus, lipid class and fatty acid composition of, in South Georgia **28**, 297
Chorismus antarcticus, seasonal variations in total lipid content of . . **27**, 93
Choromytilus meridionales, reproductive cycles and gamete production in **30**, 53
Chthaimalus stellatus eggs, changes in biochemical composition of, during development **22**, 263
Circadian and circatidal rhythms in *Thalassotrechus barbarae* **22**, 79
Cirripede eggs, biochemistry of **22**, 263
Cirripede shells, organic and inorganic composition of **21**, 119
Cirripede shells, transmission of radiation through and relation to penetration of endolithic algae and photic responses **21**, 235
Cirripedes, action of protease on the oviducal sac **27**, 219
Cirripedes, copulation, release of oocytes and formation of egg lamellae **27**, 195
Cirripedes, passage of spermatozoa into oviducal sac and closure of pores **27**, 289
Cirripedes, properties of ovisacase **27**, 233
Cirripedes, protein amino-acid composition and gel electrophoresis of oviducal sac and egg case **27**, 251
Cirripedes, studies on reproduction of **27**, 195, 219, 233, 251, 261, 289
Coastal copepods, small-scale horizontal distribution of **23**, 241
Complanate *Scytosiphon lomentaria* from southern Australia, effects of season, temperature and daylength on life history of **25**, 187
Condylactus sp., ammonia metabolism in **21**, 1
Containing microplankton, possible consequences of, for physiological rate measurements **26**, 55
Control of emergence and nocturnal planktonic existence in the peracarids of Mediterranean beaches **27**, 61
Copepods, annual changes in the weight, elementary composition and calorific values of juvenile stages of **26**, 265
Copper and zinc ions, combined effect on phytoplankton **25**, 37

Copper tolerance of phytoplankton in dialysis and batch culture . . . **22**, 249
Copper uptake in phytoplankton . . . **26**, 249
Corophium bonnelli, tube irrigation in . . . **26**, 289
Coscinasterias calamaria, observations on the settlement of brachiolaria larvae of, in laboratory and on the shore . . . **30**, 95
Crassostrea gigas, tidal rhythm of feeding and digestion in . . . **26**, 135
Crevice availability, effect on abundance and size-structure of a population of *Littorina rudis* . . . **23**, *285*
Crustacea, measurement of water drinking rates in . . . **30**, 199
Cucumaria curata, organic, inorganic, and caloric composition of eggs, pentaculae, and adults . . . **24**, 49
Cultural characteristics of *Uronema marinum* . . . **24**, 213
Cuticular adaptations of two parasitic copepods in relation to their modes of life . . . **22**, 237

Decrease in eigenvalues used in a principal component analysis: comparison with the broken stick model . . . **25**, 67
Diatoms in dialysis culture, nitrogen-limited growth in . . . **21**, 169
Diatoms in Narragansett Bay, limiting nutrients and maximum growth rates of . . . **28**, 109
Digestive and other enzymes in *Gononemertes australiensis* . . . **24**, 285
Discrete molecular weight components of the organic matrices of mollusc shells . . . **30**, 45
Dissolved organic compounds in Loch Etive, Scotland . . . **29**, 65
Distribution of meio- and macrofauna of coral sands at Grand Récif (Madagascar) . . . **22**, 31
Distribution of organic carbon in a marine planktonic food web following nutrient enrichment . . . **26**, 235
Dogfish shell gland, a histochemical study . . . **23**, 267
Donax trunculus, biology of, in Algeria . . . **21**, 211
Doridella obscura, development, metamorphosis, and natural history of . . . **27**, 171
Dotriacontane, capture and metabolism of, by *Chaetoceros simplex calcitrans* . . . **30**, 277

Ecological energetics of 0-group *Carcinus maenas* . . . **30**, 233
Ecological experimentation with the generations of *Padina japonica* . **26**, 225
Ecological studies of the salt marsh ecad *scorpioides* of *Ascophyllum nodosum* . . . **23**, 171
Ecology and life cycles of two littoral isopods . . . **24**, 133
Ecology of *Membranipora* and a major predator *Doridella steinbergae* along fronds of *Laminaria saccharina* at Friday Harbor, Washington **24**, 1

Ecophysiology of some marine nematodes from Bermuda: seasonal aspects **26**, 97
Effect of fluctuating salinity on concentrations of free amino acids and ninhydrin-positive substances in adductor muscles of bivalve molluscs **29**, 131
Effect of high stability iron-complexes on kinetics of iron accumulation and excretion in *Mytilus edulis* **28**, 133
Effect of territorial adult pomacentrid fishes on recruitment and survival of juveniles on coral rubble **24**, 297
Egg production in *Upogebia africana*, effect of heated effluent . . . **29**, 291
Electron microscope study of association between some sponges and bacteria **30**, 301
Elminius modestus, effects of juvenile hormone analogues on larval metamorphosis **26**, 163
Endogenous activity rhythm and rhythmicity of catches of *Nephrops norvegica* **25**, 95
Engraulis mordax, histological criteria for diagnosing starving condition in early post yolk sac larvae of **25**, 285
Epibenthic deposit-feeding holothurian, utilization of organic matter from sediments **23**, 55
Epibenthic microalgal productivity in air, ^{14}C method of measurement of **25**, 207
Eretmochelys imbricata, incubation and hatching success in artificially incubated eggs of **22**, 91
Esterase variation in the Atlantic eel **22**, 113
Eunicella cavolinii, variations in growth forms of, related to water movements **21**, 109
Euphotic zone profiles and nitrate reductase activity **29**, 119
Eurydice affinis, on Mediterranean beaches **27**, 61
Eurydice pulchra, behavioural basis of intertidal zonation in **23**, 135
Evisceration, effect of oxygen consumption in *Stichopus parvimensis* . **28**, 125
Embryonic development in local races of *Balanus balanoides* **24**, 251
Extracellular carbohydrate yield of *Prasinocladus marinus* **22**, 313
Extracellular products of cultures and natural phytoplankton populations, glycollic acid in **25**, 141
Experimental analysis of sea urchin dynamics and community interactions on a rock jetty **27**, 1

Factors limiting distribution and abundance of littoral molluscs on Macquarie Island (sub-Antarctic) **21**, 11
Fauna of a *Fucus serratus* community: ecological isolation in sponges and tunicates **21**, 249

Feeding by an omnivorous planktonic copepod **29**, 231
Feeding rates of planktonic copepods from a tropical sea **29**, 263
Free amino acids and ninhydrin-positive substances in adductor muscles of bivalve molluscs, effect of fluctuating salinity on concentration of **29**, 131
Ferric hydroxide, kinetics of accumulation and excretion and distribution in tissues of *Mytilus edulis* **23**, 71
Fiddler crab microhabitats, temperature variations in **21**, 141
Filter-feeding organisms, saturated ring-sterols in **30**, 29
Fish communities of eel grass, functional analysis of **22**, 293
Fish communities of eel grass, structural analysis of **22**, 269
Fluorescence analysis of zooplankton gut contents and an investigation of diel feeding patterns **25**, 77
Food and direct uptake from water in accumulation of zinc and iron by *Nucella lapillus* **30**, 315
Food concentrations, observations on existence of lower threshold and upper critical values in *Acartia tonsa* **29**, 211
Fucales, short-term effects of temperature on growth of **29**, 181
Fucoid algae, seasonal growth and reproduction in New England estuaries **25**, 273
Fucus serratus community, fauna of **21**, 249
Fucus spiralis, ecological study of **24**, 33
Fucus vesiculosus, estimation of absolute polyphenol content **30**, 209
Functional morphology of alimentary tract of barnacles **28**, 183
Fundulus heteroclitus, predation by, in relation to prey size and habitat structure **23**, 255

Gastropod shells: a potentially limiting resource for hermit crabs . . **22**, 101
Gastropods, intertidal, movements of **26**, 191
Gastrosaccus mediterraneus on Mediterranean beaches **27**, 61
Gastrosaccus spinifer on Mediterranean beaches **27**, 61
Genital papillae, adaptive significance in echinoids **27**, 187
Glycogenolysis in octopus spermatozoa **27**, 155
Glycollate uptake by *Skeletonema costatum* in bacterized culture . . **22**, 227
Glycollic acid in extracellular products of cultures and natural phytoplankton populations **25**, 141
Glycollic acid uptake by a marine bivalve **28**, 243
Gononemertes australiensis, histochemical observations on digestive and other enzymes in **24**, 285
Gonyaulax polyedra, nitrate metabolism in **21**, 199
Growth of plankton diatom species in Oslofjord water in the absence of artificial chelators **29**, 91

Gracilaria corticata at Mandapam, spore liberation in **21**, 91
Gracilaria sp. experiments on inocula incubated under greenhouse conditions **30**, 249
Growth of *Prasinocladus marinus* **22**, 313
Growth of a red alga in semi-closed culture **23**, 45

Haliplanella luciae, effects of fluctuating temperature and immersion on asexual reproduction in laboratory culture of **28**, 141
Heart and scaphognathite activity in *Carcinus maenas* **28**, 87
Heavy metal tolerance in marine phytoplankton **22**, 249
Heavy metal tolerance of phytoplankton **25**, 37
Heavy metals and survival of phytoplankton **26**, 249
Hemolymph conductivity in crabs, method for continuous *in vivo* measurement of **26**, 203
Hermit crabs, effects of shell stress on growth of **23**, 299
Homarus gammarus, changes in blood serum protein levels during moulting **28**, 293
Homarus gammarus, feeding mechanism, structure of gut and digestive physiology **26**, 297
Hypertrophication and phytoflagellate blooms in Lower New York Bay **28**, 53
Inorganic nutrients and pigments in Loch Etive, Scotland **29**, 45
Interference competition as a mechanism of coexistence between two sympatric species of *Palaemonetes* **25**, 19
Iridaea cordata, growth in semi-closed culture **23**, 45
Iron, accumulation of, by the dogwhelk **30**, 315

Juvenile hormone analogues, effect on larval metamorphosis in *Elminius modestus* **26**, 163

Laboratory culture of *Tritonia diomedea* and some aspects of its behavioral development **30**, 261
Lembos websteri, tube irrigation in **26**, 289
Lepas fascicularis, biochemical composition of cement of, electrophoretic examination of protein moieties **25**, 263
Leuresthes tenuis, temperature and salinity tolerances of larvae compared with those of *L. sardina* **24**, 73
Limiting nutrients and maximum growth rates for diatoms in Narragansett Bay **28**, 109
Lipid class and fatty acid composition of *Chorismus antarcticus* in South Georgia **28**, 279
Littorina rudis, effect of crevice availability on abundance and size-structure in a population of **23**, 285

Liverpool Bay, seasonal study of distribution of surface state variables. I. Winter data **29**, 303
Lovenia elongata, distribution, substratum preference, and burrowing behaviour in Gulf of Elat **22**, 207
Lytechinus variegatus, absorption efficiencies of, for selected marine plants **21**, 223

Macrocystis integrifolia, diurnal exudation of ^{14}C-labelled compounds **28**, 151
Macrophyte-epiphyte biomass productivity in an eelgrass community **26**, 211
^{54}Mn accumulation and retention in plaice **21**, 179
Marine birds, analyses of stomach oils **23**, 15
Marine sterols. V. Sterols of some Tunicata **30**, 29
Martesia striata, larval development of **22**, 55
Metapenaeus bennettae, bacteria and algae in food of **22**, 131
Membranipora, observations on ecology of, and a major predator, *Doridella steinbergae*, on fronds of *Laminaria saccharina* **24**, 1
Mercury accumulation from food by plaice **25**, 51
Mercury accumulation from sea water by plaice **24**, 103
Mercury accumulation by the thornback ray **25**, 131
Microbial biology of a model sandy beach **24**, 61
Model sandy beach, microbial biology of **24**, 61
Model sandy beach, nutrient chemistry of **22**, 179
Mollusc shells, discrete molecular weight components of organic matrices of **30**, 45
Molluscs on Macquarie Island (sub-Antarctic) **21**, 11
Monitoring heart and scaphognathite activity in Natantia **27**, 117
Movements of intertidal gastropods **26**, 191
Mugil cephalus, bacteria and algae in the food of **22**, 131
Multivariate analysis of surface water characteristics in the summer regime of the western Irish Sea **25**, 171
Mya arenaria, effect of environmental factors on the absorption of amino acids by isolated gill tissues of **24**, 205
Mytilus edulis, cellular responses to shell damage in **30**, 1
Mytilus edulis, effects of high stability iron-complexes on the kinetics of iron accumulation and excretion in **28**, 133
Mytilus edulis, kinetics of accumulation and excretion of ferric hydroxide and its distribution in the tissues **23**, 71

Natantia, technique for monitoring heart and scaphognathite activity in **27**, 117
Nephrops norvegica, endogenous activity rhythm and rhythmicity of catches of **25**, 95

Nephtys cirrosa, burrowing activity of **24**, 307
Nereis diversicolor, burrowing of **30**, 129
Nerita atramentosa, food competition between age-classes in **23**, 145
Nitrate metabolism in red tide dinoflagellate **21**, 199
Nitrate reductase activity as a function of *in situ* nitrate uptake and environmental factors of euphotic zone profiles **29**, 119
Nitrogen and carbon in pelagic *Sargassum* community metabolism . **29**, 107
Nitrogen-limited growth of diatoms in dialysis culture **21**, 169
Nucella lapillus, rôle of food and direct uptake from water in accumulation of zinc and iron **30**, 315
Nucella lapillus, shell form and niche occupation in **26**, 275
Nutrient chemistry of a model sandy beach **22**, 179
Nutrient enrichment, effect on distribution of organic carbon in planktonic food web **26**, 235
Nutrient enrichment of oligotrophic waters of northwestern Mediterranean Sea, effect on phytoplankton **24**, 151
Nutrient enrichment of surface waters from upwelling area off Spanish Sahara, effect on phytoplankton **24**, 165

Oceanographic variables, spectral analysis of spatial series of . . . **30**, 147
Octopus spermatozoa, glycogenolysis in **27**, 155
Olivella biplicata, avoidance and escape responses to predatory asteroids **28**, 77
Ophiothrix angulata, salinity tolerance in latitudinally separate populations **29**, 35
Ophiura from the Bristol Channel, seasonal variation and ecology of gametogenesis in **30**, 185
Ophryotrocha puerilis, experimental analysis of 'Paarkultureffekt' in . **28**, 31
Organization of 'special' parenchymal cells underlying the midgut in some barnacles **23**, 155
Oxidative enzymes, distribution in cheliped muscle of *Scylla serrata*, influence of eyestalk removal **24**, 83
Oxygen consumption in the blue crab **22**, 171

'Paarkultureffekt', experimental analysis of, in *Ophryotrocha puerilis* . **28**, 31
Pachycerianthus fimbriatus, ultrastructure of ectoderm of tentacles . . **29**, 151
Padina japonica, ecological experimentation with the generations of . **26**, 225
Palaemonetes, mechanism of coexistence of two sympatric species of . **25**, 19
Panulirus longipes, sound production by **23**, 191
Particulate organic carbon in Loch Etive, Scotland **29**, 81
Particulate organic nitrogen in Loch Etive, Scotland **29**, 81
Patina pellucida, shell form, behaviour and tolerance to water movement in **23**, 307

Pattern analysis in bryozoan and spirorbid communities: distance sampling methods **21**, 99
Pavlova (Monochrysis) lutheri, chemical composition as a function of nitrate-, phosphate-, and iron-limited growth **29**, 1
Pecten maximus, effects of tidal currents on rhythms of feeding and digestion in **24**, 271
Pecten maximus, ultrastructure of statocysts in pediveliger larvae of . **27**, 23
Petrels, composition, energy content, and function of stomach oils . . **23**, 1
Phased cell division in natural populations of marine dinoflagellates from shipboard cultures **25**, 239
pH of body fluids from marine intertidal invertebrates **30**, 327
Phytoflagellate blooms in Lower New York Bay and hypertrophication **28**, 53
Phytoplankton and its contribution to primary production of coral reef areas in French Polynesia **21**, 129
Phytoplankton, combined effect of copper and zinc ions on **25**, 37
Phytoplankton growth and survival under simulated upwelling and oligotrophic conditions **26**, 153
Phytoplankton, heavy metal tolerance in **22**, 249
Phytoplankton, heavy metal tolerance of **25**, 37
Phytoplankton in dialysis and batch culture, copper tolerance of . . **22**, 249
Phytoplankton response to waste water nutrient enrichment in continuous culture **23**, 31
Phytoplankton sinking rate determination, technical and theoretical aspects and improved methodology **30**, 283
Phytoplankton survival in high concentrations of heavy metals and uptake of copper **26**, 249
Plankton diatom species, growth in Oslofjord water in absence of artificial chelators **29**, 91
Planktonic copepods from a tropical sea, feeding rates **29**, 263
Pleuronectes platessa, accumulation and retention of ^{65}Zn and ^{54}Mn . **21**, 179
Pleuronectes platessa, accumulation of cadmium **30**, 223
Pleuronectes platessa, accumulation of inorganic mercury from sea water **24**, 103
Pleuronectes platessa, accumulation of mercury from food **25**, 51
Pleuronectes platessa, accumulation of ^{110m}Ag **29**, 315
Plumaria elegans, reproductive ecology of, at its northern limits in western Atlantic **29**, 223
Pollicipes cornucopia, ultrastructure of oviducal sac **27**, 261
Prasinocladus marinus, growth, salinity tolerance and extracellular carbohydrate yield of **22**, 313
Pressures generated by the pumping mechanism of some ciliary filter-feeders **25**, 199

Prey 'handling time' and importance in food selection in *Spinachia spinachia* **25**, 151
Primary productivity in upper reaches of a South African estuary . . **24**, 93
Principal component analysis, use of, to describe snail shell resource of hermit crabs **22**, 69
Proboscis eversion in *Arenicola marina*, rôle of head and coelom . . **23**, 85
Production of carbohydrates by marine planktonic diatoms. II. Influence of the N/P ratio in the growth medium on assimilation ratio, growth rate, and production of cellular and extracellular carbohydrates by *Chaetoceros affinis* var. *willei* and *Skeletonema costatum* **29**, 161
Proteins, trypsin, and amylase of zooplankton, automatic and manual measurement of **29**, 279
Protozoan chemostat culture, long term variations in **24**, 227
Pumping mechanisms of some ciliary filter-feeders, pressures generated by **25**, 199

Raja clavata, accumulation of cadmium **30**, 223
Raja clavata, accumulation of mercury by **25**, 131
Raja clavata, accumulation of ^{110m}Ag **29**, 315
Rate and nature of infestation of a carbonate substratum by a boring alga **27**, 107
Rates of remineralization and assimilation of urea by fractionated plankton populations **28**, 1
Reproduction in cirripedes **27**, 195, 219, 233, 251, 261, 289
Respiratory responses of *Carcinus maenas* to changes in environmental salinity **29**, 197
Rhithropanopeus harrisi, effect of temperature on phototaxis and geotaxis of larvae **23**, 97
Rhythms of feeding and digestion in *Pecten maximus* **24**, 271
Rocky intertidal fish community, resilience of, in a physically unstable environment **22**, 1

Salinity tolerance of *Ophiothrix angulata* in latitudinally separate populations **29**, 35
Salinity tolerance of *Prasinocladus marinus* **22**, 313
Sargassum muticum, growth and development of **26**, 41
Sargassum pelagic community metabolism, carbon and nitrogen . . **29**, 107
Sargassum, wind-induced sinking of **28**, 255
Saturated ring-sterols in filter-feeding organisms **30**, 29
Scylla serrata, influence of eyestalk removal on histochemical distribution of oxidative enzymes in cheliped muscle **24**, 83
Seasonal growth and reproduction of estuarine fucoid algae in New

England **25**, 273
Serpula vermicularis, effects of salinity, temperature, and mercury on mortality of the trocophore larvae of **23**, 127
Shell-banding patterns in *Austrocochlea constricta* **23**, 211, 229
Shell form and niche occupation in *Nucella lapillus* **26**, 275
^{110m}Ag, accumulation by *Pleuronectes platessa* **29**, 315
^{110m}Ag, accumulation by *Raja clavata* **29**, 315
Sinking rate determination of phytoplankton, technical and theoretical aspects and improved methodology **30**, 283
Size, temperature, and scaphognathite frequency-dependent variation volumes in *Carcinus maenas* **30**, 85
Skeletonema costatum, carbohydrate production in **29**, 161
Skeletonema costatum, chemical composition as a function of nitrate-, phosphate-, and iron-limited growth **29**, 1
Skeletonema costatum, effect of temperature on physiological state of **27**, 37
Skeletonema costatum in bacterized culture, uptake of glycollate by . **22**, 227
$(Na^+ + Mg^{2+})$-dependent adenosine triphosphatase in gills of the eel **28**, 67
Sound production by *Panulirus longipes* **23**, 191
Spatial organization of the Jamaican damselfish community **28**, 217
Spatial pattern of a population of *Donax trunculus* on an Algerian beach **21**, 211
Spatial segregation in copepod species from a brackish water habitat **26**, 77
Species density and associations in Caribbean reef corals **24**, 19
Spectral analysis of spatial series of oceanographic variables **30**, 147
Spinachia spinachia, prey 'handling time' and importance in food selection of **25**, 151
Spinachia spinachia, some factors governing prey selection in **25**, 159
Sponge predation in the oyster reef community as demonstrated with *Cliona celata* **25**, 109
Sponges and bacteria, electron microscope study of association between **30**, 301
Spore liberation in *Gracilaria corticata* at Mandapam **21**, 91
Stichaster australis, observations on the settlement of brachiolaria larvae of, in laboratory and on the shore **30**, 95
Substratum preferences of settling larvae in laboratory reared marine fish **27**, 47
Suppression of coral populations by filamentous algae with damselfish territories **28**, 207
Squilla mantis, maturation in; principal component analysis of data . **21**, 159
Statocysts, ultrastructure of, in pediveliger larvae of *Pecten maximus* **27**, 23
Stegoalpheon kempi, study of cuticle of, in relation to its parasitic mode of life **25**, 87

Stichopus parvimensis, effect of evisceration on oxygen consumption of **28**, 125
Stomach oil of marine birds, analysis of in subantarctic procellariiform birds **23**, 15
Stomach oils of petrels, energy content and function **23**, 1
Sympatric hermit crabs, seasonal variation in occurrence of planktonic larvae of **21**, 279

Talorchestia longicornis, grazing on an algal mat in a New England salt marsh **22**, 161
Temperature and salinity tolerances of larval *Leuresthes tenuis*: comparison with *L. sardina* **24**, 73
Temperature effect on biomass production in mass cultures of phytoplankton **27**, 161
Temperature, short-term effects on growth of intertidal Fucales . . . **29**, 181
Temperature variations in fiddler crab microhabitats **21**, 141
Thais spp. distribution and changes in shell form near Bamfield, B.C. **23**, 109
Thalassotrechus barbarae, circadian and circatidal locomotory rhythms in **22**, 79
Total lipid content of *Chorismus antarcticus*, seasonal variations . . **27**, 93
Tritonia diomedea, laboratory culture of, and some aspects of its behavioral development **30**, 261
Trypsin, amylase, and proteins of zooplankton, automatic and manual measurement of **29**, 279
Tube irrigation by *Lembos websteri* and *Corophium bonnelli* **26**, 289
Tunicata, sterols in **30**, 29

Ultrastructure of ectoderm of tentacles of *Pachycerianthus fimbriatus* **29**, 151
Upogebia africana, effect of heated effluent on egg production . . . **29**, 291
Urea, *in situ* utilization of in the euphotic zone of the tropical Atlantic **21**, 269
Uronema marinum, culture characteristics of **24**, 213
Urosalpinx cinerea, intraspecific signalling of hunting success or failure in **21**, 7
Utilization of organic matter in shallow marine sediments by an epibenthic deposit-feeding holothurian **23**, 55
Utilization of palmitic acid, cetyl alcohol, and dotriacontane by marine invertebrates **25**, 123

Water drinking rates, measurement of in Crustacea **30**, 199
Water movement and variations in growth of *Eunicella cavolinii* . . **21**, 109
Wave exposure, effect on amphipod fauna of *Caulerpa brownii* . . **25**, 1
Winkler procedure for precise measurements of oxygen productivity and related studies **21**, 191

^{65}Zn accumulation and retention in plaice **21**, 179
Zinc, accumulation of, by the dogwhelk **30**, 315
Zooplankton gut contents, fluorescence analysis of, and an investigation of diel feeding patterns **25**, 77
Zooplankton of Kingston Harbour, Jamaica **25**, 219
Zostera marina community, macrophyte-epiphyte biomass and productivity in **26**, 211
Zostera marina, ecology of fish communities of **22**, 269, 293
Zostera marina, seasonal distribution and changes in nutritive quality of living, dead, and detrital fractions of **30**, 109
